# Subprocessor List

**Effective Date:** 2 November 2026
**Last Updated:** 2 November 2026
**Legal Entity:** Thyleads Private Limited, operating Harvin.ai

Harvin uses third-party service providers to support certain features of the service. Where those providers process Customer Personal Data on behalf of Harvin, they may act as Subprocessors.

## Current Subprocessors and Service Providers

| | |
|---|---|
| **Google Cloud Platform** | Application infrastructure, compute, storage and related cloud services. Primary Harvin production region: Mumbai, India. |
| **Google** | Google sign-in, Gmail integrations, Calendar integrations and related Google Workspace functionality where enabled by the customer. |
| **Microsoft** | Microsoft sign-in, Outlook/email functionality and related Microsoft services where enabled by the customer. |
| **Smartlead** | Email sequencing, sending, campaign management and connected inbox functionality. |
| **Instantly** | Email sequencing and sending where used. |
| **HeyReach** | LinkedIn outreach functionality where enabled. |
| **Twilio** | Voice calling and related telephony infrastructure. |
| **FreJun** | Calling functionality and related telephony infrastructure. |
| **Anthropic** | Generated drafts, recommendations, research, meeting preparation and related model-assisted functionality. |
| **Google Gemini** | Classification and related model-assisted functions. |
| **Groq** | Model-assisted classification and related functionality. |
| **Apollo** | Business-data enrichment. |
| **Apify** | Collection and processing of permitted public web or professional information for supported workflows. |
| **SerpAPI** | Search-engine data and research functionality. |

## Changes to Subprocessors

Harvin may update this Subprocessor List as its infrastructure and service providers change. Where required by an applicable Data Processing Addendum or applicable law, customers will receive appropriate notice of material new Subprocessors.
